How to Cast Spells

Part I

Create Tapestry

Meld Tapestry cards together to create patterns..

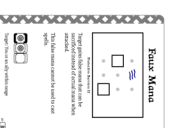

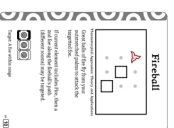

New cards must be placed **on top** of existing cards, **overlapping** at least one square.
Any mana covered by the new card is immediately recovered.

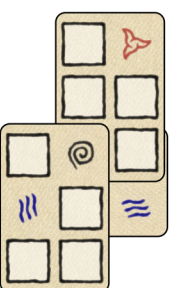

How to Cast Spells

Part II

Prepare Spell

To cast a spell, you must first create the pattern in your Tapestry.

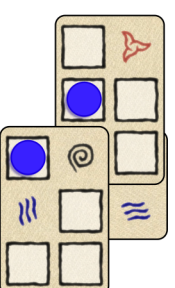

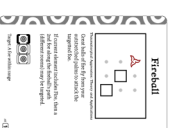

These patterns may be flipped, mirrored or rotated.

How to Cast Spells

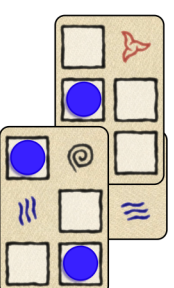

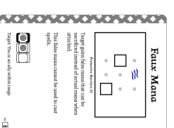

Part III

Cast Spell

Place mana on Tapestry to complete the pattern.

A spell is cast when last mana to complete the pattern is placed.

Previously placed mana can serve to partially complete your next spell.
